AP HUMAN GEOGRAPHY CHAPTER 11: AGRICULTURAL GEOGRAPHY READER'S NOTES

What Is Agriculture,	And Where Did Agriculture Begin? 368
Define agriculture.	
Why do we classify economic activities into sectors?	
Contrast the percent of the population is employed in agriculture in Guatemala compared to Canada.	
What does the high proportion of labor involved in agriculture in Guatemala tell us?	
Why are the total production of agriculture so high in the USA and the total percentage of labor so low?	
What new technologies make agriculture more productive in advanced countries?	
Hunting,	Gathering And Fishing 369
What was the most common means of subsistence before farming?	
Explain the diversity of regional specialization in North America among the Native Americans.	
What determined the size of hunting and gathering clans?	
Te	errain And Tools 369
What did hunter-gatherers need before they could become agriculturalists?	
Describe the first tools.	
What was the next step in development of tools?	
Why was the control of fire so important to hunter-gatherers?	
What was the most important result of using tools and fires to alter their environment?	
How did hunter-gathers take advantage of the cyclical movement of animals in herds?	
The First Ag	ricultural Revolution 369-371
Why did geographer, Carl Sauer believe that only in lands of plenty would agriculture occur?	
Where did plant domestication take place?	
What combination of elements brought forth the earliest planned cultivation?	
What are root crops ?	

What are seed crops ?	
Where did the first Agricultural Revolution [cultivating of seed crops] occur in the world?	
Why did plants change themselves?	
What did agriculture provide for the people? (2 items)	
What were the first grain crops?	
Where did corn diffuse from originally?	
Where did the white potato originally come from?	
What accelerated the diffusion of crops?	
Domesti	cation of Animals 371-373
How did the process of animal domestication come about?	
What were the main domesticated	
animals at first?	
What were the advantages of humans	
having domesticated animals?	
Why did people choose the docile	
animals for domestication?	
What kind of animals did people in Southwest Asia domesticate?	
What kind of animals did people in	
Southeast Asia domesticate?	
What kind of animals did people in South Asia domesticate?	
What kind of animals did people in Central Asia domesticate?	
What kind of animals did people in Mesoamerica domesticate?	
The process of animal domestication started when?	
	tence Agriculture 373-375
Define subsistence agriculture.	
When did subsistence agriculture begin to decline and why?	
Why has there been a return to subsistence farming in many parts of the world today?	
Why have Zapatista farmers cut themselves off from commercial farming?	
What is shifting agriculture?	
Where is shifting agriculture found primarily in the world today?	
Explain slash-and-burn agriculture.	

How Did Agriculture	Change With Industrialization? 375-381
Where did the Second Agricultural Revolution take place? And when?	
How did trade play a role in the new agricultural revolution?	
Explain Great Britain's Enclosure Act.	
What new technologies helped improve production?	
What did Cyrus McCormick do?	
How did the reaper improve production ten times over?	
How did animal breeding improve yield?	
What was the role of the railroad in the improvement of agricultural production and distribution?	
What did the invention of the internal combustible engine do to improve agriculture?	
Under The Spat	ial Layout Of Agriculture 376-377
What is the Von Thünen model ?	
What does the model explain about land use in agriculture?	
What did Geographer Lee Liu discover about farmers and the land closest to the village?	
	gricultural Revolution 377-378
Why is the 3 rd Agricultural Revolution also called the " Green Revolution "?	
When and where did researchers begin to genetically experiment with Maize?	
Why did the focus of the Green Revolution shift to India in the 1960s?	
Describe the genetic changes in the IR8 plant.	
Explain the genesis of the IR36 plant. When did this occur?	
Why was the impact of the Green Revolution limited in Africa?	
Where would high yield cassava and sorghum be grown?	
Why are environmentalist concerned about the problem with pollen dispersal?	
Why are environmentalist concerned with the higher inputs of chemical	

fertilizers, herbicides, and pesticides?	
Explain the position of the magazine	
Scientific American regarding the plight	
of the subsistence farmer.	
Why are smaller farmers at such a	
disadvantage when it comes to	
implementing Green Technology?	
	etically Modified Foods 378
Define GMOs .	
How much of the processed food market	
in the U.S. has GMOs?	
In the U.S., how many acres of land are	
planted with GE corn? GE Soybeans?	
Why would the poorer countries in the	
world ban GMOs?	
What is the argument for ideological	
resistance to GMOs? Where in the affluent world is ideological	
resistance to GE the strongest?	
J	and Local Change 378-379
What are the three elements that have	Tanu Local Change 378-379
changed since the recent shift from	
subsistence agriculture to commercial	
agriculture?	
How has the raising of cash crops in	
Latin America affected the people?	
Why is subsistence farming in Sub-	
Saharan Africa and South Asia still the	
most prevalent type of farming?	
What kind of changes does Judith	
Carney describe from her study of	
agricultural practices in Gambia, West	
Africa?	
Why are women's lives impacted so	
heavily by the shift from subsistence	
farming to commercial farming in Africa	
and South Asia?	I Madauniastica on Faulian Buzatica 270 200
	Modernization on Earlier Practices 379-380
How has the global world affected the	
lives of hunter-gatherer groups? What	
kinds of pressure do they experience	
today?	
Why has subsistence farming been in	
retreat since the 1500s?	
What methods did the colonial powers	
use to encourage commercial farming in	
the colonies?	
What seems to be happening to small	
farmers as agriculture becomes more	
mechanized?	
Why is shifting cultivation and slash-n-	
burn agriculture environmentally friendly	
under some circumstances?	
What Imprint does Agricult	ure Make on the Cultural Landscape? 381-386

3	
Define the cadastral system of	
mapping? (Glossary A-19) What is the predominant system of	
survey for the U.S.? Also known as? <i>Define.</i>	
What was the Homestead Act?	
What does the metes and bounds	
survey system demarcate land?	
Where is metes and bounds survey	
system most prevalent?	
How did the <i>long-lot survey system</i>	
divide land?	
Where is <i>long-lot survey system</i> most prevalent?	
What is primogeniture?	
Where is primogeniture most prevalent?	
	Villages 383-385
How much of the labor force in America	
still works in farming?	
What was the traditional make up of a	
"village"?	
What principle does the village form	
reflect?	
What is the rural settlement pattern in	
the U.S.?	
What is a nucleated settlement pattern?	
Describe the characteristics of a linear	
village pattern.	
Describe the characteristics of a cluster	
village pattern.	
Describe the characteristics of a round	
village pattern.	
Describe the characteristics of a walled	
village pattern.	
Describe the characteristics of a grid	
village pattern.	rentiation with in Villages 385-387
	Tentiation with in Villages 385-387
How does social stratification reflect the	
material wellbeing of African society?	
How does the caste system reflect the material wellbeing of Indian society?	
Describe the functional differentiation of	
farm buildings on American farms.	
	d Geographically, and How has Agribusiness Influenced
	orary Geography of Agriculture?
Define commercial agriculture.	
How id transportation and food storage	
impact agricultural production?	
Define monoculture.	
Explain the Köppen climate	
classification system?	

Define climatic regions.	
Explain the characteristics of an "A" climate.	
Explain the characteristics of an "B" climate	
Explain the characteristics of an "C" climate	
Explain the characteristics of an "D" climate.	
Explain the characteristics of an "E" climate.	
Explain the characteristics of an "H" climate.	
The World	Map of Agriculture 389-394
Cash Crops a	nd Plantation Agriculture 390-392
How did colonialism profoundly shape	
the non-subsistence farming in many	
poorer countries?	
Define plantation agriculture.	
Where is plantation agriculture primarily practiced?	
Who owns the most productive	
plantations?	
What steps did the multinational	
corporation, United Food Company, take to halt land reform in Guatemala?	
	stock, Fruit, and Grain Agriculture 392
What region on the map (11.18) does	tock, Trait, and Grain Agriculture 352
most dairying farming take place?	
What region on the map (11.18) does	
most of the commercial agriculture take	
place?	
Where is mixed livestock and crop	
farming the most widespread in the world?	
world:	
Define livestock ranching.	
What is the pattern on the map (11.18) for livestock ranching? (locations)	
Sub	sistence Agriculture 392
What are the three types of subsistence	
agriculture on the map (11.18)?	
Why doesn't the map (11.18) tell the	
whole story about regions that are	
labeled as subsistence farming?	
	terranean Agriculture 392
Describe the label "Mediterranean	
agriculture"? Is Mediterranean	
agriculture strictly confined to the	

What kinds of crops are grown in	
Mediterranean agricultural regions	
	ug Agriculture 392-394
Why would farmers in the periphery find	
it more profitable to cultivate poppy,	
coca, or marijuana plants, rather than	
grown standard cash crops?	
Where is coca mostly grown?	
Where are most of the opium poppy plants cultivated?	
What percentage of opium poppy is	
grown in Afghanistan?	
Why did the most of the production and	
trafficking of coca move from Columbia	
to Mexico in the 1980s and 1990s?	
Why is the DEA concerned about "high	
potency" marijuana coming out of	
Mexico?	
Where do most western Americans get	
their opium for heroin?	
Where do most eastern American get their heroin?	
In the U.S., what states are top	
producers of marijuana?	
Describe the findings of Evan Mill's study	
on the energy impact of growing	
marijuana in the U.S. (indoor vs.	
outdoors)	
In	formal Agriculture 394
What is informal agriculture?	formal Agriculture 394
What is informal agriculture? Why is urban agriculture likely to grow	formal Agriculture 394
What is informal agriculture? Why is urban agriculture likely to grow in importance in the coming years?	
What is informal agriculture? Why is urban agriculture likely to grow in importance in the coming years?	formal Agriculture 394 Jences on Agriculture 394-395
What is informal agriculture? Why is urban agriculture likely to grow in importance in the coming years?	
What is informal agriculture? Why is urban agriculture likely to grow in importance in the coming years? Political Influence cash crop.	
What is informal agriculture? Why is urban agriculture likely to grow in importance in the coming years? Political Influence cash crop. What is considered one of the most

Where is this product primarily grown today?	
What country buys more than half of the	
coffee sold on the market today?	
Who is Juan Valdez?	
How does a coffee producer become	
eligible for membership in the	
International Fair Trade Coffee register?	
What major coffee companies in the U.S.	
are committed to using coffee from fair	
traders?	
What country began the full-scale flow of	
tea into European markets?	
Why did local riots break out in the cities	
of West Africa over rice?	
Agribusiness and the Ch	nanging Geography of Agriculture 396-397
Define agribusiness .	
What does agribusiness do?	
Where are broiler houses concentrated	
in the U.S.?	
Where is hog production concentrated in	
the U.S.?	
How have urban supermarkets changed	
as a result of agribusiness?	
What group of people decides what will	
be grown and at what price it will be	
sold?	
Environmental Impa	cts of Commercial Agriculture 397-399
Why is there overfishing and a general	
decline in fish stocks in the world today?	
How does the landscape of Europe	
reflect years of agriculture and trade?	
What are the two reasons that organic	
farmers believe they are being "priced	
out of the market" by large-scale	
farming?	
How has the population of hamburgers	
led to widespread deforestation in	
Central and South America?	
The Challeng	e of Feeding Everyone 399-401
Where has food production per capita	
declined in the world today?	
How many people are malnourished in the world today?	
Even though there is enough food being	
produced why are there so many	
malnourished?	
1: :: :: :: : : :	
I How are expanding cities affecting farm	
How are expanding cities affecting farm production?	
production?	
production?	

Explain the problem with land use for the "get away from it all" movement?	
What two factors have caused a global rise in the price of food?	
How did the rise in food prices help to effect the revolutions in North Africa and Southwest Asia in the spring of 2011?	
What are food deserts ?	
Where are urban food deserts typically found in the U.S.? Why?	
What types of food are people in urban food deserts most likely to buy?
